SIGNATURE COLLECTION
BY NICOLAS SCHUYBROEK

Belgiqa is proud to present the Signature Collection by Nicolas Schuybroek: an exclusive collection that brings together architecture, materials and craftsmanship in a single timeless design vision.

Developed in close collaboration with Nicolas Schuybroek, one of Belgium's most renowned architects, this collection translates his distinctive design philosophy into a complete architectural timber concept. A collection in which tranquillity, rhythm, tactility and natural materials take centre stage.

Based on the distinctive Superba T wood species, the collection features a carefully curated colour palette and a range of refined laying patterns. The result is a material language that goes beyond floor design alone, offering architects and interior designers the opportunity to design entire spaces from a single coherent starting point.

Belgiqa's growth is driven by strong partnerships that support both our products and our brand.
We work with dedicated brandstores who share our 100% commitment, and in return we uphold our promises with equal dedication. Together, we pursue one clear goal: shared growth through international expansion.

HARDWOOD FLOORING

The Signature Collection by Nicolas Schuybroek translates architectural calm and refinement into a unique collection in Superba T. The subtle finishes enhance the natural depth and character of the wood. Built around pure lines, tactility, and timeless elegance, the collection is available in a variety of patterns and formats, ranging from traditional planks to herringbone, chevron, and exclusive designs. Thanks to the Belgiqa 360° concept, the same aesthetic can be extended across parquet flooring, veneer panels, veneer planks, and flexible veneer, creating a harmonious total interior experience in one material expression.
