BELGIQA, ONE PARTNER FOR YOUR ENTIRE INTERIOR.

At Belgiqa, it's about more than parquet, it's about a complete 360° wood experience. From floors to walls, ceilings and bespoke furniture, our solutions allow wood to flow seamlessly through every aspect of your interior. Thanks to finishes in any colour from our parquet collection, our veneer products are suitable for all types of projects: from homes and offices to hotels, bars and restaurants. With consistent colours, premium finishes and endless design freedom, Belgiqa is your partner for the ultimate wood experience.

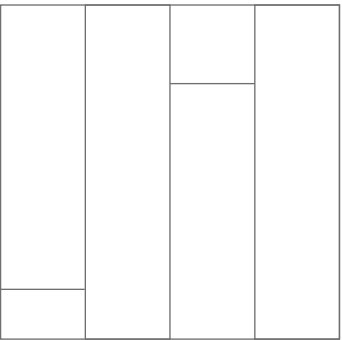

YOUR 360° WOOD EXPERIENCE

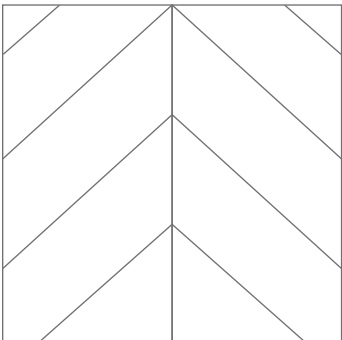

PATTERN

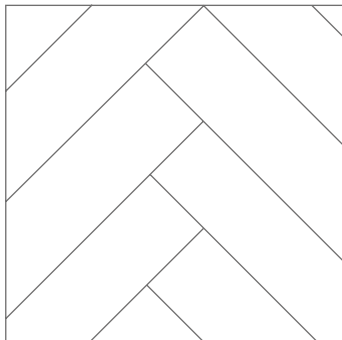

The way a floor is laid has just as much impact on its appearance as the wood species or grading. The choice of laying pattern gives a floor its unique character. For the pure elegance of plank flooring or create additional dynamism with a refined patterned floor such as herringbone, chevron, or Versailles.

GET YOUR 3D TEXTURES

At Belgiqa, we are always seeking new ways to make the creative process for architects and designers easier and more inspiring. Our brand-new online product builder takes this ambition one step further. In our factory, every product is scanned and transformed into a digital twin: a hyper-realistic version of our engineered floors, veneer panels, and wall and floor coverings.

These 3D textures integrate directly into design software such as SketchUp, Revit, and similar tools. This allows architects to work with the exact colour, pattern, and finish of our products, giving clients a true-to-life preview of the final result. The product builder makes it simple to test ideas, compare options, and present designs with full confidence to your customer.
